VISIX

BRAND SHINERS®

Startent®

Do you want to draw all the attention to your brand at an event? Do you want a multitude of admiring glances?

Then the Startent® is the eye-catcher you need.

A beautiful trendy tent in high quality that is completely tailored to your needs.

With Visix's technical know-how and high-tech printing techniques, you can perfectly match such a Startent® with the style and experience of your brand.

Many years of research, development and experience make the Startent®, by far, the showpiece of Visix, a European registered trademark.

Top quality coupled with long-lasting enjoyment and enormous promotional power are the major assets of this unique product. Partly thanks to the Startent®, Visix has become the market leader in Europe, as an innovative company with an ever-growing export.

Manual

01 | MOUNTING AND INSTALLATION

Step 1: Check all parts

- ▶ Sail
- ▶ Pole
- ▶ Carrybag with ground spikes,
- ▶ Measuring rope, turning handle
- ▶ Protective groundsheet
- ▶ Hammer
- ▶ Crowbar

Step 2: Measure

- ▶ Determine the central point with the center pin. **(photo 01-02)**
 - ▶ Measure leg 1 from the center pin. **(photo 02)**
 - ▶ Hang the measuring rope around the center pin AND leg 1 and measure leg 2. **(photo 02-03)**
 - ▶ Let the rope hang from the center pin and hang the rope from leg 2.
- Now measure leg 3. (same to measure all 6 legs)

Step 3: Placing Ground stakes

- ▶ Drive the Stakes into the ground up to a protruding part about 5 cm. **(photo 04)**

Step 4: Placing the groundsheet

- ▶ Place a protective groundsheet on 1 side of the center pin. **(photo 05)**

Step 5:

- ▶ Lay the canvas open on the ground sheet. With the point away from the center pin.
- ▶ Attach the aluminum feet to the two pins closest to the tip of the tent.
- ▶ Lay the other tent arms open towards their corresponding pin. **(photo 06)**

Step 6:

- ▶ Slide the pole under the canvas
- Tip: person 1 at the front and person 2 at the back, to support the pole.
 Person 1 at the front slides the pole into the ring of the tent. Person 2 at the back takes care. Make sure the foot of the post rests against the center pin. **(photo 07-10)**

Step 7: Raising the tent

- ▶ Person 1 pushes the pole over his head.
 - ▶ Person 2 pulls the tent to the opposite legs. (leg 3 and 4)
- Finally work in leg 5 and 6. **(photo 11-12)**

Step 8: Winding Up and Tensioning

- ▶ Turn the tent up with the turning handle. **(photo 13)**
